

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims

Claims 1-7: (Cancelled)

Claim 8. [Currently Amended] A vehicle comprising a structural beam structure extending generally transverse in the vehicle and extending between two A-pillars positioned adjacent opposite sides of said vehicle, said beam structure serving as a support for components in the vehicle, a pedal arrangement comprising a pedal arm pivotally supported by a pedal bracket structure which defines a pivot axis for said pedal arm and which is adapted to be fixedly mounted in said vehicle, and a stop element mounted on said pedal arm ~~so that it faces rearwardly with respect to said vehicle, said stop element being mounted on the pedal arm at a position in front of said beam structure and facing rearwardly with respect to the vehicle which is chosen~~ so that, in the event of a collision, said stop element comes into contact with said beam structure -to inhibit the brake pedal arm from moving rearwardly in said vehicle.

Claim 9. [Originally Presented] The vehicle according to claim 8, further comprising a firewall to which said pedal bracket structure is mounted.

Claim 10. (Cancelled)

Claim 11. [Currently Amended] The vehicle according to claim 8, wherein said ~~pedal bracket structure defines a pivot axis for said pedal arm which is~~ located higher than said beam structure.

Claim 12. [Currently Amended] The vehicle according to claim 8, ~~wherein said beam structure is arranged at a height which is sufficiently low for it to serve as a support for~~ further comprising a dashboard resting on supported by said beam structure.

Claim 13. [New] The vehicle according to claim 8, wherein said beam structure comprises a tube.
